

# Research Psychiatric Center

## What Our Patients Say

“On the day that my mother was admitted, the admissions staff took the time to answer my many questions and concerns. Their compassion and understanding meant so much to me. At the same time, it gave me the impression that my mother was in a safe place where she would be well cared for.”

“This was probably the hardest thing I ever had to do. It was also the best thing I ever did. Obviously life-saving, and I thank you.” Patient, Adult Services Unit

“Again absolutely the best care and courtesy we’ve experienced.” Patient, Senior Adult Unit

“Everyone was very patient-oriented and truly cared about my well-being. It was a very pleasant experience and if I were to have problems in the future, or knew anyone who needed help, I would recommend Research Psychiatric Center.” Patient, Partial Hospital Program

“Dr. Khoury was a lot of help and very easy to talk to during our sessions. He never made me feel rushed.” Patient, Partial Hospital Program

“The nursing staff was very professional. Thank you to all of the staff!”

“The professionalism, competence and availability were excellent. I would recommend Dr. Cole (Psychiatrist) and Research Psych to anybody.”

“Anne Snider (Partial Hospital Program) was very compassionate, caring and knowledgeable. Dr. Van Horn is the best doctor I have ever had.”

“I think Research (Psychiatric Center) is the best place for people who need help, and the environment is very caring and safe. I am so thankful for the experience and hopeful for the future.”

“Dr, Khoury, Anne, Perry and Jim work very well together and were very useful to me and my family. I felt comfortable in expressing myself and my needs.”

“I have never felt so well equipped to deal with any contingency after discharge. I am optimistic and confident.”

“I feel a lot healthier today than when I first arrived. I feel I am on a positive, peaceful and productive path to recovery.”
